110. End Credits

101 Unpublished Lists Volume one was not an easy project. It also hasn't sold well. However, the focus of creating one project, a book that compiled 101 comedy lists that were never published before was worth the time. There's something very satisfying about adopting an enormous goal and finding the strength and determination to work your way there.

There will be a sequel to this book published next year, entitled 103 Unpublished Lists Volume 3. There will also be a best of book that takes the 25 bests lists from each books and adds in twenty-five new ones. Basically, it will be the equivalent of a writer's greatest hits.

In closing, I hope you have enjoyed the ride. I am still deeply indebted to all my readers. For without an audience, an writer is nothing more than a the dying dream of an artisan that fades like an echo locked inside of a closed mind.

Or it's like a metaphor that makes half the people say "brilliant," and the other half say, "WTF?"
